

Welcome to

HALL'S GARAGE

Dedicated to MG and other fine automobilia

Motor Engineers

Over 50 years family service to the motoring public

Hall's Garage has been sited at the crossroads in Morton near Bourne since 1948. The business was started by Charlie Hall, and Steve, the youngest of five brothers and two sisters, virtually grew up in the workshop. The MG connection started back in 1975 when Steve bought his first MGB GT and was introduced to the MG Car Club by a friend who raced a TC. When members of the Club found out that he was interested in MG's and had a garage, they began to bring their cars to sort out problems or carry out engine modifications.

Hall's Garage offers a full range of restoration services. All types of work are undertaken, from a mild sympathetic tidy up to a full last nut and bolt rebuild to show standard. Few restorers can offer all the services which are available in-house at Hall's.

Some of our restored cars have won Condition Class and Concours Awards. The high standard of work has meant that Hall's Garage has gained much recognition, and our cars have been exported to places such as Jersey, Spain, Italy and even Japan.

We also undertake non-standard modifications – as an example, we were the first to convert an MGB GT shell to MGC specification which meant significant structural work, the result of which you can see below.

Under the catchphrase 'Live Your Dream' we have built the 'perfect car' to customers' own specification. Please call for further details, or to discuss your potential project.

For those motor sport enthusiasts old enough to remember, the market town of Bourne will always be linked with the BRM grand prix team of the early sixties. It is no surprise therefore that engineering firms and garages such as Hall's Garage became involved with the Formula One company. In Graham Hill's championship winning year, Hall's Garage actually worked on the cylinder heads and light machine work for BRM. They cross-etch honed their cylinder blocks right up to BRM's demise in the early seventies.

Hall's has produced many MG race cars, some of which have won the MGCC BCV8 Championship in Standard, Modified and V8 Classes. Race engines built by Hall's have also powered winning cars in the MGCC Metro Championship and Mini Stocks.

Although our forte is MG work, we also undertake work on most thoroughbred and classic cars, including Healey 100/4 – 3000, Aston Martin, Ferrari, Bentley, Rochdale, Riley and the like. As a village garage, we also work on most modern cars. This has lead us to become renowned for carrying out headgasket and cambelt replacement for our own clients and for other garages too.

M.O.T. Testing

Class I & II	Motorcycles and Combinations
Class III	Three Wheeled Cars and Tricycles
Class IV	Passenger Cars and Light Goods Vehicles up to 3,000Kg

Servicing

We can service and maintain most makes of vehicle – not just sports cars!
Cambelt replacement
Hydragas suspension replenishment (MGF, Rover Metro etc.)
Wheel alignment checks
Wheel balancing

Specialist work

Complete engine reconditioning service
Head gasket replacement
Cylinder head refacing
Cylinder block re-boring and honing
Unleaded conversions
Valve and valve seat refacing
Stud removal
Timesert thread replacement
Gearbox rebuilds
Race car preparation - 'arrive & drive' service

Body Shop

From those minor bumps and scrapes to full
bodywork restoration
Waxoyl protection
Engine bay detailing

We sell:

MG Spares	Oil & Oil Filters
Piper Camshaft Kits	SU Carburettor Rebuild Kits
Gasket Sets	Spark Plugs
Cam Belt Kits	Fan Belts
Exhaust Systems	Tyres
Batteries	Shock Absorbers
Brake Fluid	Lucas Bulbs
Polish	Alloy Wheels
Number Plates of all types made to order	
Tow Bars for Chrome MG B, C & V8 Models	
MGC Torsion Bar Box Panels	

...and much more!

We are Agents for:

Aldon Ignitors and Distributors
K+N Filters
Millers Oils
Penrite Oils
Corbeau Seats
Luke Race Harnesses
Moss MG Parts
Forte Products

Car Sales

We always have a selection of used MG cars for sale – check the web site for our current stock

Commission Sales Undertaken

Motorcyclists

Suppliers of Baglux Accessories
Tank Covers
Tank Bags
Tuff Maps – water proof and tear proof A5 format
Ring Bound Maps

MGCC & MGOB Approved
All major credit cards accepted
